January 24, 2025

Dear Industry Leaders:

On February 17, 2025, the American Society of Civil Engineers (ASCE) Hawai'i Section will be debuting the film *Cities of the Future*, narrated by award-winning actor and director, John Krasinski.

Cities of the Future features five young ASCE members working to solve the world's most pressing challenges with inspiring solutions. It also follows a team of middle school students as they compete in the [Future City Competition](#).

The ASCE Hawai'i Section will be hosting two (2) screenings of *Cities of the Future* at Regal Windward Stadium 10 to attract those that are curious and/or interested in engineering. Additionally, before each screening we will be having a short panel discussion to highlight the engineering field and inspire attendees to pursue a career in engineering. In order to put on a production of this magnitude and to be able to offer tickets to students at a low price, we are seeking corporate sponsors.

For a \$500 donation, your company logo will be included in our printed program and other promotional materials (e.g., ASCE Hawai'i Section website, on-screen before/after the film screening, at the ASCE booth during the HCES E-Week, etc.). We are also providing sponsors with an optional speaking opportunity to spotlight your company before one of our panel discussions, as well as a promotional code (unlimited uses) for 50% off the ticket price that you can share with your staff, friends and family.

If you are interested in supporting, or if you have any questions, please contact Steven Doo at presidentelect.ascehawaii@gmail.com. Donations can be mailed to ASCE Hawaii Section, P.O. Box 917 Honolulu HI 96808 (payable to ASCE Hawaii Section) or you can pay by credit card at <https://www.zeffy.com/ticketing/cities-of-the-future-corporate-sponsorship> or by using the QR code below.

For more information regarding the film, please visit ascehawaii.org/cities-of-the-future/. Thank you for your continued support of the local engineering community!

Sincerely,

Sheila K. Uyeoka, PE, M.ASCE
